- Chapter 3: Laws Protecting Information
- Chapter 4: Employer Responsibility
- Chapter 5: Duty to Notify
- Chapter 6: Minimizing Risk
- Chapter 7: Employer Checklist
- Chapter 8: Summary
- Assessment

Synopsis:

There are many types of corporate identity theft today involving sensitive information, intellectual property, financial assets and even brand theft. Theft of employer records is a leading cause of identity theft in today's workplace. *Identity Theft Protection* addresses these issues and sets forth both the laws surrounding employee privacy and ways that employers can address this growing problem in order to minimize risk to both company and employee.
